

Document review sample

This document is a fictional sample for the SWPICK file inspector. It is not a contract and contains no personal information.

Requirements

Delivery date is ~~September 10~~September 12.

Details

Inspect heading levels and revision elements in the file. The review sample intentionally skips a heading level; the clean sample corrects it.

Before delivery

The review sample contains a comment and tracked edits. The clean sample finalizes the wording and excludes the comment and hidden example. Compare the file inspection results with the document.

This is a controlled example, not a guarantee of identical rendering across applications or removal of all hidden information.
